Consolidated Phase-Out 2026

As part of our ongoing commitment to innovation and product excellence, we regularly review our product portfolio to ensure it meets the evolving needs of our customers and the market. After careful consideration, we have decided to phase out certain products from our current offerings.

Attached to this Sales Info, as well as in our Digital Asset Management Server DAM [\[1\]](#), you will find the list of phased-out articles. All listed part numbers will be discontinued on the specified date. This decision is part of our strategic initiative to streamline our product line and focus on delivering more advanced and efficient solutions. We understand the impact this may have on your operations and are committed to providing a smooth transition.

To assist you during this transition, we have identified successor products that offer enhanced features and improved performance. The attached document includes detailed information on the affected part numbers. Where available, their respective successor product including the corresponding part number has been added. We believe these new products will better serve your needs and provide additional value to your customers.

In order to ensure a seamless transition, we kindly ask you to note the last order date for each affected part number, which is provided in the attachment. This is the final date on which orders for the phase-out products will be accepted. Please also be aware that the final shipment date will be three months after the last order date for each product, unless otherwise stated.

We highly encourage you to review your inventory and place any final orders for the discontinued products before the last order date. Our sales team is ready to assist you with any questions or concerns you may have regarding this phase-out process and to help facilitate the transition to the successor products.

We appreciate your understanding and cooperation during this period of change. Our commitment to supporting your business remains unwavering, and we are confident that our new product offerings will continue to meet your high standards of quality and performance.

Thank you for your continued partnership and support. Should you have any questions or require further assistance, please do not hesitate to contact your account manager or our customer service team.

Best regards,

pp.
Product Management
