Procell® lithium coin innovations to meet demands of the professional devices:

- High energy density (3V) with a flat and low self-discharge.
- Design, safety, manufacturing, and qualification follow Procell's stringent battery standards, which incorporate parts of the ANSI and IEC battery standards.
- Economically packaged.
- Child secure packaging: tamper-proof pack with double blister so that it is impossible for a child to open without scissors.
- Operating temperatures from -20°C to 60°C.
