Description of Change: Overglaze upgrade to lead-free version

Reason for Change: We are pleased to announce that we are upgrading the overglaze of our resistors to a lead-free variant. This improvement aligns with our commitment to environmental responsibility and product safety. By transitioning to lead-free overglass, we are reducing the environmental impact associated with traditional lead-based materials. This upgrade reflects our dedication to providing high-quality, sustainable solutions to meet the evolving needs of our customers while contributing positively to the environment.

Expected Influence on Quality/Reliability/Performance: Enhanced environmental friendliness without any compromise on the quality, reliability, and performance of the component.

Part Numbers/Series/Families Affected: RTO*, DTO*, D2TO*,

Vishay Brand(S): Vishay Sfernice

Time Schedule:

Start Shipment Date: Wed Jul 31, 2024

Sample Availability: 07/31/2024

Product Identification: RTO*, DTO*, D2TO*

Qualification Data: The validation of D2TO's qualification report extends to RTO as well

This PCN is considered approved, without further notification, unless we receive specific customer concerns before Fri May 31, 2024 or as specified by contract.
