Description of Change:

1. Change of the phototransistor die
2. Change of the bushing material from the same supplier

Reason for Change:

1. Moving from a 4-inch to a 6-inch process increases throughput, takes advantage of the advanced production line features, and ensures long-term availability.
2. The bushing material that aligns the emitter and phototransistor in the package was discontinued by the supplier; the new material has same specification.

The affected part numbers listed in this PCN will begin shipping on or after the specified start date, unless already approval by customer. The exact date will depend on the depletion of current inventory and existing contractual agreements.

Expected Influence on Quality/Reliability/Performance: There is no change in form, fit, or function. The datasheet minimum and maximum performance parameters will remain the same. Nevertheless, customers are encouraged to test the product in their application.

Part Numbers/Series/Families Affected: Please see materials list on the succeeding page.

Vishay Brand(S): Vishay Semiconductors

Time Schedule:

Start Shipment Date: Saturday May 30, 2026

Sample Availability: 15-DEC-2025

Product Identification: Product can be tracked by date code.

Qualification Data: This change has been rigorously qualified by company and industry standard.

This PCN is considered approved, without further notification, unless we receive specific customer concerns before Monday March 2, 2026 or as specified by contract.
