

December 10, 2025

Dear Valued Customer,

This letter serves as a notification to inform you that we are improving our packing methodology to eliminate the risk of product contamination by implementing a vacuum-sealed shielded bag. This improvement applies to power discrete parts that are currently packed in Tube only.

Please refer to the attached product list in the succeeding pages for detailed coverage of the affected products.

Form, fit, function changes : No change
 Effective date : Jan 2, 2026
 Packing methodology changes : Yes. See below table.

Packing Methodology

Step-By-Step	BEFORE	AFTER
Tubes arranged inside the inner box		
Tubes positioned before sealing the inner box	 Covered the tubes with bubble sheet	 Add two dessicant
Inner box after it has been closed/sealed	 Inner box is close and sealed with tape	 Inner box is vacuum sealed inside shielding bag

Your Littelfuse representative is available to discuss more specific details with you or answer any questions you may have. Thank you for your understanding and cooperation.

Yours sincerely,

Global Product Marketing Engineer
