

Product Change Notification

Date Issued :	April 13, 2026	PCN Number :	518024
Reason for Change :	Equipment Transfer, Production Transfer or Rearrangement		
Description of Change :	PSBU is transferring all Hetero molding (molds & presses) from Lincoln 3104 to Nogales 3105 over the next 18 months.		
Assessment of Change :	First Article Inspection		
Planned Implementation Date :	December 04, 2026		
Customer Sample Availability Date:	September 11, 2026		
Last date to request Samples by Customer : August 21, 2026			
Please note if Samples are not requested as per Customer Samples Request date, it may take additional 4-6 weeks to arrange Samples.			
Traceability Code Markings / Date :	Product made after planned implementation date can contain the change		

Before Picture

PCN OVERVIEW

- As a valued customer, Molex is notifying you we are continuing our manufacturing footprint optimization and production consolidation process between our US Lincoln, Nebraska and Nogales, Mexico plants.
- This large-scale mold transfer project will be divided into a series of small groups of tooling of either components or finished goods for logistical control and tracking. A Product / Process Change Notifications (PCN) like this one will be assigned to each tooling group and communicated to impacted customers.
- This PCN covers finished goods molds

Lincoln, Nebraska Sending Plant

Finished Goods mold

Transfer to

Nogales, Mexico Receiving Plant

PCN DETAILS

- **Some molded housings are considered Finished Goods and sold direct to customers without further processing or value added. Mold tooling for these Finished Goods will be transferred and the Country of Origin for these products will change from US to Mexico.**
 - No resin supplier changes are being made. The same resin supplier and resin manufacturing location used by Lincoln will also be used in Nogales.
 - Many resins are already used in the Nogales plant and the incremental usage increase poses no supply challenges.
 - **Product Impact – none, no change to form, fit or function**
 - **Qualification**
 - To ensure a complete and thorough qualification, all Finished Goods molds will be requalified after being transferred. At least one p/n will be qualified from each mold. Qualification p/n's, buffer stock quantity, transfer and implementation schedule can be found in the following chart.
- PCN will be implemented once all required qualification/ validation has been completed and all necessary approvals have been obtained to this PCN**

RELEASED
