TE Connectivity

Product Change Notification: PCN-26-288491

PCN Date: 14-AUG-26

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

Product Description: (Text limited to 120 characters)

SR4 Force-Guided-Relays - reinstated CCC certification

General Description of Changes

Dear Customer, we are pleased to inform you that the CCC certification for our SR4 product family has been successfully reinstated for the most common coil voltages of 5V, 12V, 18V, 24V, 48V and 110V (further coil voltages will be added in an upcoming certificate update). As a result, all affected made-in-EU SR4 part numbers listed below that are manufactured going forward will once again carry the CCC mark on the relay cover. Thus, all relays manufactured with date code 2634 and later will definitively include the CCC marking. This certification reinstatement ensures continued compliance with CCC requirements. Should you have any questions, please do not hesitate to contact your TE Connectivity representative.

Reason for Changes:

Reinstated CCC certification.

PCN Attributes:

Product Category:

Relays, Contactors & Switches

Kind of Change:

Revision Adjustment / Part Clarification

Change Feature:

Clarification/Correction

Potential Customer Impact:
