

CUSTOMER ADVISORY

ADV2606

Changes to Custom Label Content on Altera Products

Issued: 02/9/2026

Description:

This is a companion advisory to [ADV2602 Changes to Label Content on Altera Products](#).

Altera is informing customers about upcoming changes to the **custom** labels attached to the inner containers/box and shipping box.

- Manufacturer and/or Supplier Name is replaced with "ALTERA"
- The previous Country of Origin (COO) barcode field is replaced with "FINAL ASSEMBLY" and "FABRICATED IN" human readable and barcoded fields.
 - Note: The applicable COO will vary based on the shipment destination. The Commercial Invoice and Packing List will include both the Country of Assembly (COA) and Country of Fabrication (COF) to provide and ensure accurately represented COO information.
- The "SPEC" and "MM#" fields, where previously included in some custom labels, have been removed because they are no longer applicable.

Refer to the attachments at the end of this document for sample labels illustrating the updates.

Recommended Actions:

During the transition period, customers may receive shipments containing a mix of existing and updated labels. Please ensure that personnel at relevant label review points are informed of this change to maintain awareness and consistency.

Products Affected:

All Altera products.

You can **download** the list of affected ordering part numbers from here (same list as ADV2602):

<https://docs.altera.com/v/u/resources/r034802/part-number-list-for-adv2602-r1>

Change Implementation

Milestone	Date
Earliest shipment using the updated labels. Note: From this date, customers may start receiving shipments with a mix of existing and updated labels.	March 2, 2026
