- Regarding resin material (Bobin, Card and Base) used inside Relay, new material is going to be added and parallelly adopted besides current material from BCP point of view.
- Only color of resin material to be added and parallelly adopted will be changed into Black, which material and characteristics are same as current ones.
- Regarding Relays manufactured with material newly added, Relay's specification/characteristics and safety standard are same as current Relay. No change.
- Relays will be manufactured under combination of piece parts shown as above.
- Relays manufactured with material newly added and current Relays may be mixed when shipping due to manufacturing lot timing reason.
- This change is not applicable for JS Relay with suffix "-X" Audix Xiamen manufacturing.

Relay part numbers:

JS series Relay (Miyazaki FCL Components Limited manufacturing)

See Appendix, Part numbers list.

Reason for change:

From BCP point of view.

Implementation Schedule:

From March 2027 production onward (Plan)

Customer response:

Please send your concerns and requests for specific part numbers, samples, technical support to your FCL Components contact person or to your FCL Components Sales Executive.

Disclosure information:

None of this information shall be disclosed or forwarded to other suppliers or distributed outside your company without written approval from FCL Components Europe B.V.

Distributors are allowed and urged to forward this Product Notice information to their customers whom are buying any of the listed relay types.
