

Quality Products. Service Excellence.

Watertight Polycarbonate Miniature Enclosures 1551W Series

Key Features:

- Ideally suited for mounting small printed circuit boards.
- Molded from robust polycarbonate with satin texture finish.
- Suitable for outdoor use.
- Polycarbonate has a flame rating of UL94 V-0.
- Includes lid and four plastite #4 self-tapping screws.
- Available with or without integrated wallmounting flanges.
- PC board standoffs are molded into interior for easy installation.
- Includes replaceable silicone gasket to protect against ingress of water or dust.
- Designed to meet IP68.
- For general purpose (not watertight) miniature enclosures, see our **1551** series.
