

Product Upgrade Notice: UHP-1500/2500、PHP-3500、HEP-1000 Series

Date : 2026.01.26

Version 45

To address the growing demand from end customers for CANBus and PMBus communication functions, MEAN WELL has implemented functional upgrades for the UHP-1500/2500, PHP-3500, and HEP-1000 series.

Following this upgrade, there will be differences in functional terminals and product appearance compared to previous versions. Any additional cost resulting from this upgrade will be fully absorbed by MEAN WELL, and product pricing will remain unchanged.

After the upgrade is implemented, there will be a transition period during which both previous and updated versions may be shipped, depending on factory inventory status. If you have any questions regarding this product change, please refer to the latest datasheets published on the MEAN WELL official website, or contact your MEAN WELL sales representative or authorized local distributor.

Virtual Expo Category	Series Name	Functional Upgrade	Appearance Change		Implementation Date
			Before	After	
A1 Enclosed Type PSU Hall	UHP-1500(HV)	UHP-1500-24/48/115/230/380: Original models upgraded with built-in CANBus UHP-1500-24/48/115/230/380PM : Previously custom-built, now upgraded with built-in PMBus			2026.02
	UHP-2500	UHP-2500-24/48: Original models upgraded with built-in CANBus UHP-2500-24/48PM: Previously custom-built, now upgraded with built-in PMBus			2026.02
	PHP-3500(HV)	PHP-3500-24/48/115/230/380CAN : Previously custom-built, now upgraded with built-in CANBus	 Communication interface appearance unchanged; PMBus and new CANBus models use different communication pin assignments		2026.02
	HEP-1000	HEP-1000-24/48/100CAN、HEP-1000-24/48/100WCAN : Previously custom-built, now upgraded with built-in CANBus	 Communication interface appearance unchanged;		2026.02
